## Service Philosophy

### Strong Enough To Handle – Small Enough To Care

Our service can be adapted to the very special needs of our clients and partners, respectively, their projects. We strive not only to be a supplier of shipping & transportation services to our clients, but also a logistics partner.

MSP aims to protect the environment and to use only modern equipment and shipping methods which are least harmful to nature. We treasure the goods of our clients, as well as our world.

# MSP FEEDER VESSEL

**Name Of The Ship ALINA**  
**Vessel type Container vessel**

# MSP FEEDER SERVICES

# Services

## Project Cargo

MSP offers project solutions, tailored to the needs of the project and the client.

Project services include expediting inland transportation by rail, road or inland waterways, ocean and air transportation, customs clearance, delivery to project site and, if requested, rough setting onto foundation.

## Other Associated Services Include:

Feasibility Studies for special transports, as well as road surveys

Packing and storage

Time status reports by *tailor made local software*

Supervision by own agents en-route

# Services

## Conventional/Break Bulk Shipments

MSP offers a vast services of shipping conventional and break bulk cargo from structural steel to the most complicated oversized and/or heavy machinery.

The type of vessel for each shipment is selected based on the specific needs of the merchandise. Each commodity requires different handling and together with our clients, we find the way to handle the special product economically and safely.

Most of the time, these shipments are handled from ex works or FCA to rough setting onto foundations.

## RO-RO SERVICES

MSP offer a range of RORO services From JEBEL ALI ,SHARJAH & HAMRIYAH(EMIRATES) to chabahar,bahonar,Rajae, lengeh,bushehr,khoramshahr (IRAN SOUTHERN PORTS) . **Roll on/Roll off** is by far the cheaper & most cost effective way to ship a vehicle

One car can go into 1 x 20-ft container. Two (or more, depending on size) can go into 1 x 40-ft container. The majority of vehicles being shipped abroad go via RORO vessel. Cause by using RORO vessel, it will save a huge money and more convenient compare with the containers.

# Services

## Container Services

### FCL (Full Container Load)

Based on carrier routing options, FCL is our best transit-time to cost-effectiveness for full container loads.

FCL offers complete schedule flexibility, a high frequency of sailings from all ports and availability of required equipments. A big variety of container types are available; Box Containers, Open Tops, Flat Racks, Heavy Duty Platforms, and Reefers.

## Service Option

You can specify the pick-up and delivery options you require for each single consignment as:

- Door to Door
- Port to Port
- Door to Port
- Port to Door

# Services

## Logistics Services

By having Logistics Centers and Container Terminals at Bandar Abbas Special Economical Zone, MSP can provide logistics services with the automated distribution scheme.

**WAREHOUSING / CFS**

# Services

## Trucking Services

MSP provides road transportation from any place of loading to all destinations mainly to all hinterland customs points in Iran and all land-locked CIS region via Bandar Abbas through *International North-South Transport Corridor (INSTC)*. Truck movements ranging from regular loads, oversized and heavy cargo, refrigerated goods and containers are all arranged by MSP. Together with our National and International partners, we provide road haulage on a door to door basis. MSP offers precise pre-planning of all movements, as well as precise transport coordination of the respective truck loads. Customs clearance, transport permits, and all associated issues are in one hand.

**Thermo Truck**

**Europe Truck - Transit**

**Container Truck**

# INSTC

## International North-south Transport Corridor

# INSTC

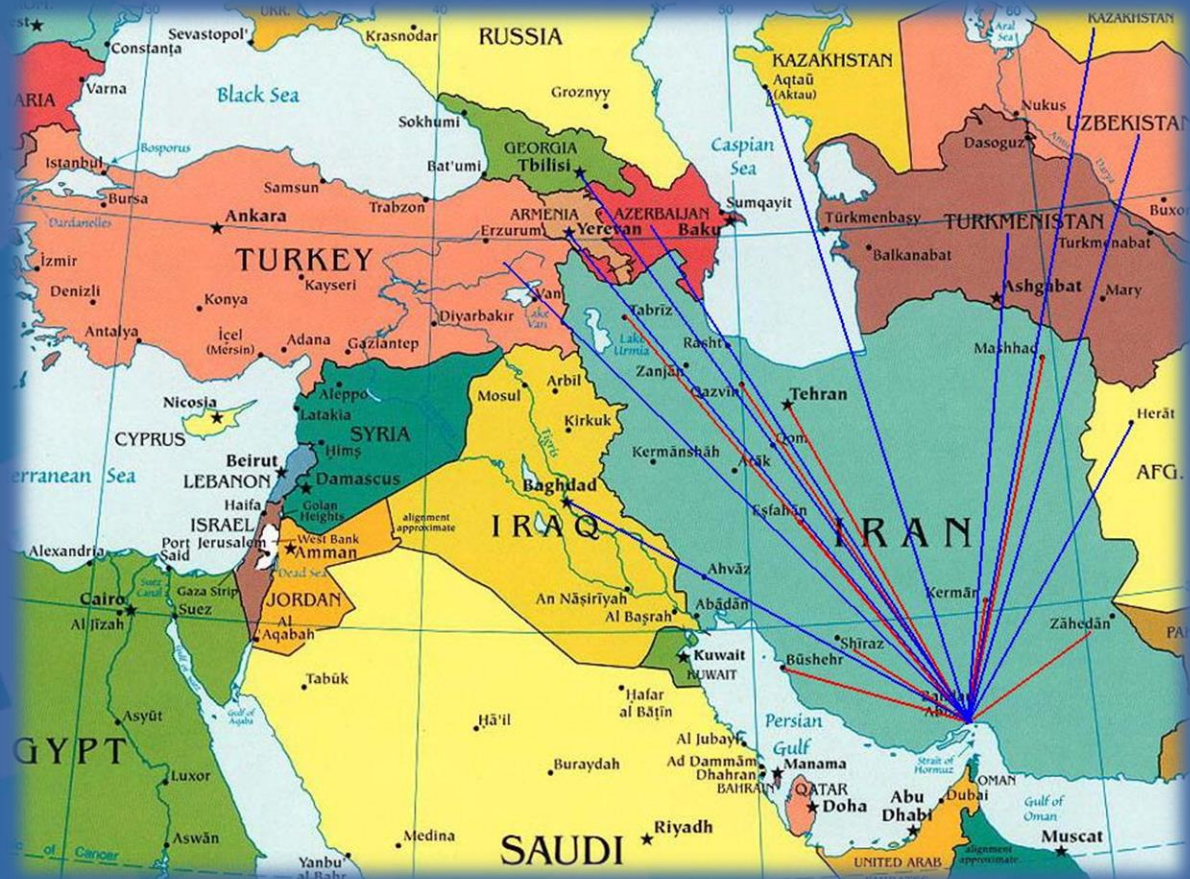

- **International North-South Transport Corridor (INSTC), is a multi modal transportation established in 12 SEP 2000 in St. Petersburg, by Iran, Russia, and India for the purpose of promoting transportation cooperation among the Member States.**
- **This corridor connects Indian Ocean and Persian Gulf to the Caspian Sea and CIS countries via Bandar Abbas, Iran, then is connected to St. Petersburg, and North Europe via Russia Federation.**

# INSTC

- The INSTC was expanded to connect below countries via Bandar Abbas by truck and rail services:
- Azerbaijan
- Armenia
- Afghanistan
- Kazakhstan
- Kyrgyzstan
- Tajikistan
- Turkmenistan
- Uzbekistan
- Iraq

<b>Borders:</b>	<b>Distance to Tehran:(KM)</b>	<b>Distance to Bandar Abbas:(KM)</b>

Bishkek (Kyrgyzstan )	3501

# Services

## Train

For heavy and long cargo, rail transportation is often the best solution. MSP knows how to select the best type of railcar and transport routes. Also, many containers are shipped by rail to the port of call to inland customs points, neighboring and outland CIS countries destinations.

This type of carriage to be considered especially for long distance and land-locked CIS countries.

**MSP**

# Services

## Air Freight

MSP provides airfreight transportation from direct AWB to consolidation services, and complete or part charter to and from any airports. All associated services, ranging from pre-carriages, customs clearances, storage, warehousing, all the way to on-carriage to final destination, can be included in our package.
